*
 DOLBY B·C NR HX PRO

Colour

(K)...Black Type

Please file and use this manual together with the service manual for Model No. RS-AZ7, Order No. AD9601017C2.

Note: • This service manual is provided to indicate the main differences between the original model No. RS-AZ7 (E) and the subsequent model No. RS-AZ6 (E, EB, EG).

Area

Suffix for Model No.	Area	Colour
(E)	Europe.	(K)
(EB)	Great Britain.	
(EG)	Germany and Italy.	

* Dolby noise reduction and HX Pro headroom extension manufactured under license from Dolby Laboratories Licensing Corporation. HX Pro originated by Bang and Olufsen. "Dolby", the double-D symbol and "HX PRO" are trademarks of Dolby Laboratories Licensing Corporation.

Power consumption	25W
Weight	3.9kg

CHANGE IN REPLACEMENT PARTS LIST (RS-AZ7 Service Manual of pages 56~60.)

- Notes:** • Mentioned in this parts list is only those different from Model No. RS-AZ7 (E). All other parts are the same as for RS-AZ7 (E).
 • Important safety notice:
 Components identified by \triangle mark have special characteristics important for safety. Furthermore, special parts which have purposes of fire-retardant (resistors), high-quality sound (capacitors), low-noise (resistors), etc. are used.
 When replacing any of components, be sure to use only manufacture's specified parts shown in the parts list.
 • The parenthesized indications in the Remarks columns specify the areas. (Refer to the cover page for area.) Parts without these indications can be used for all areas.

⚠ WARNING

This service information is designed for experienced repair technicians only and is not designed for use by the general public. It does not contain warnings or cautions to advise non-technical individuals of potential dangers in attempting to service a product. Products powered by electricity should be serviced or repaired only by experienced professional technicians. Any attempt to service or repair the product or products dealt with in this service information by anyone else could result in serious injury or death.

■ SCHEMATIC DIAGRAM

(This schematic diagram may be modified at any time with the development of new technology.)

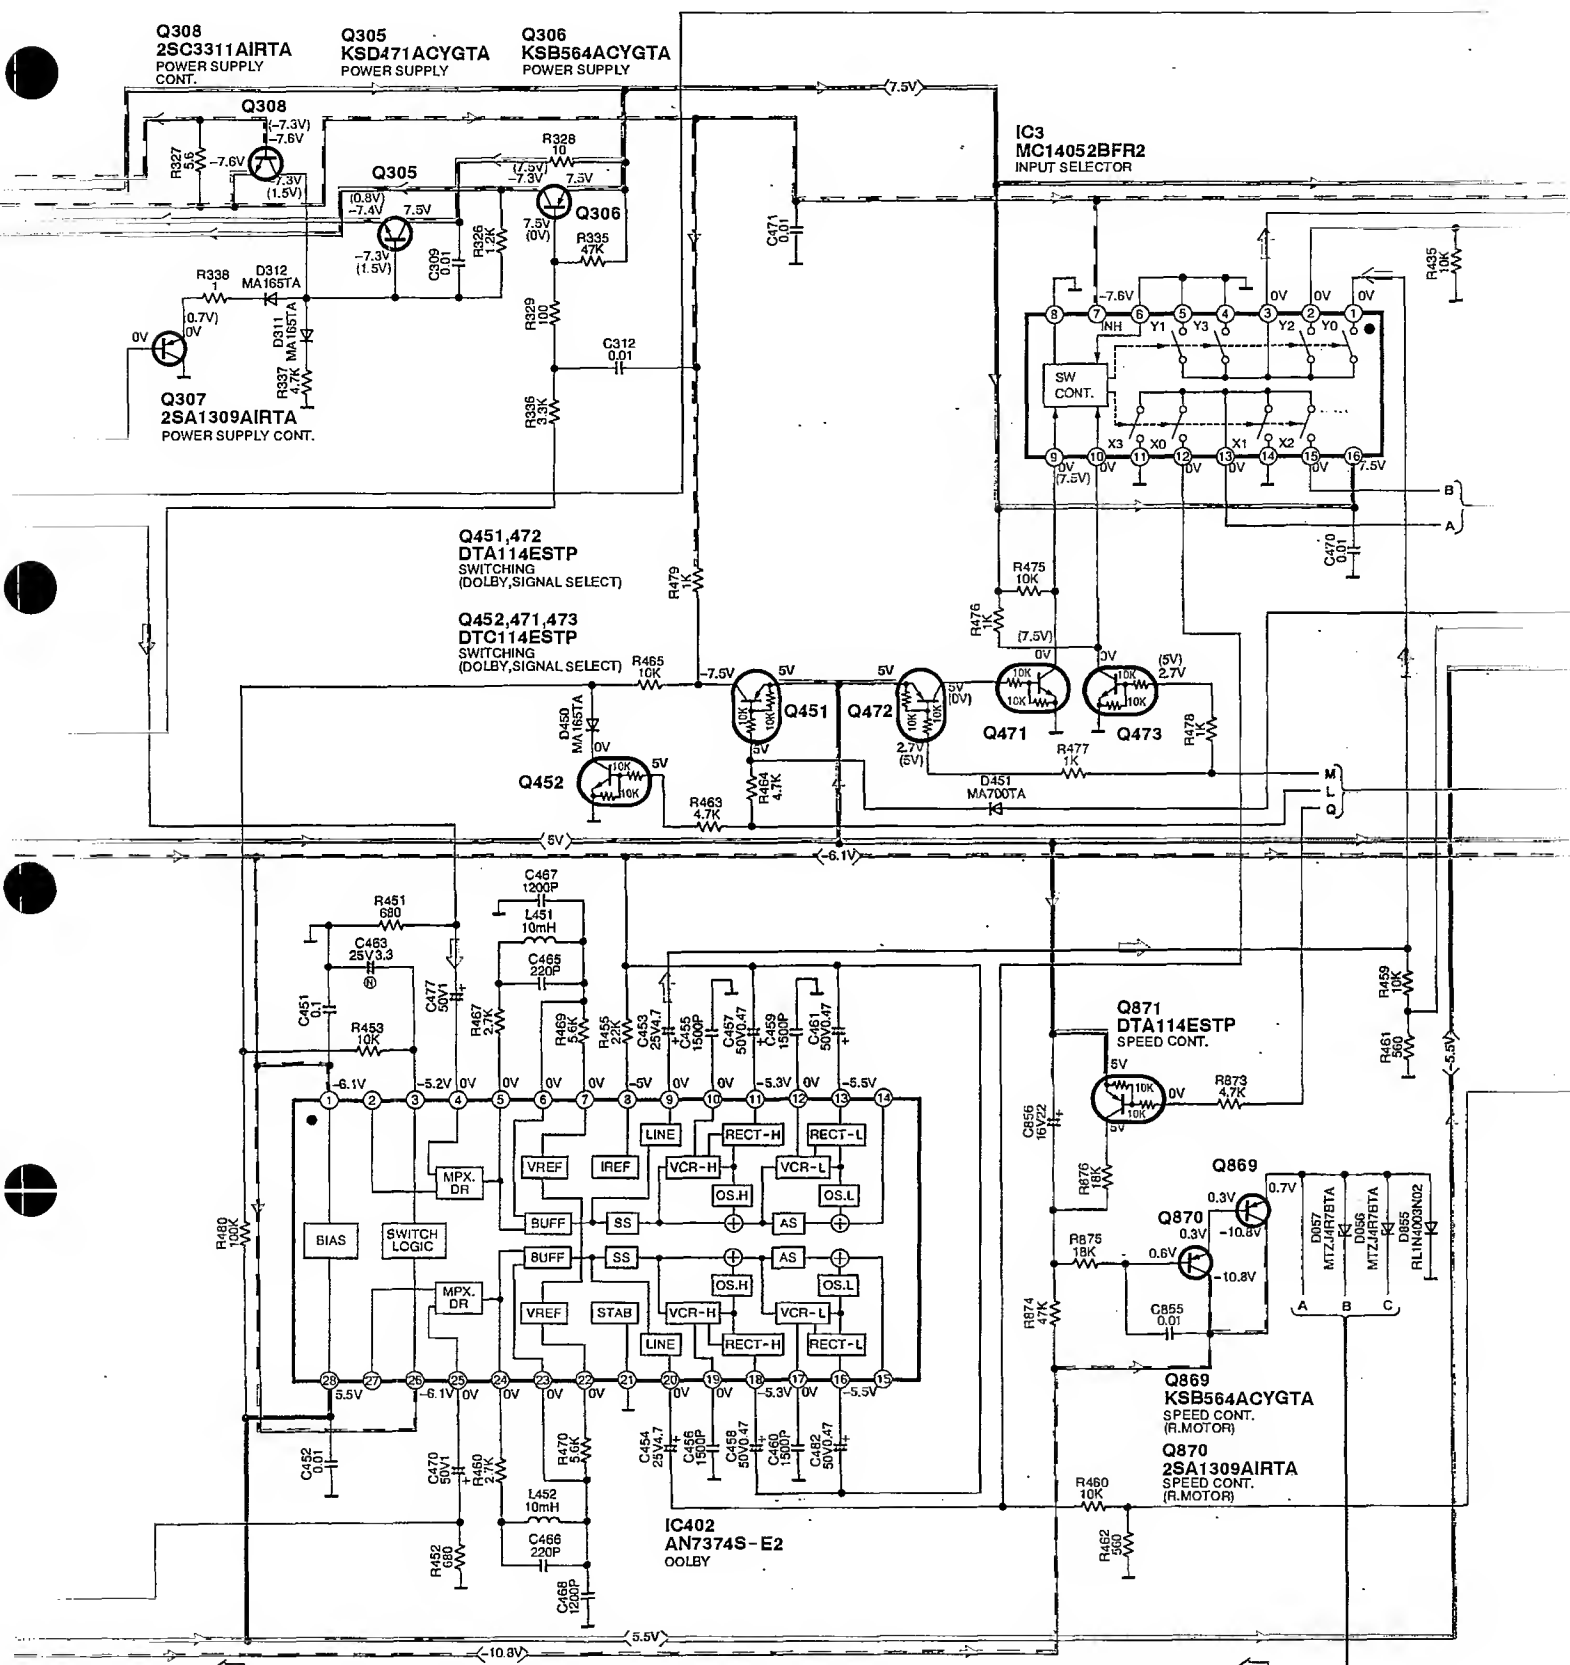

Notes:

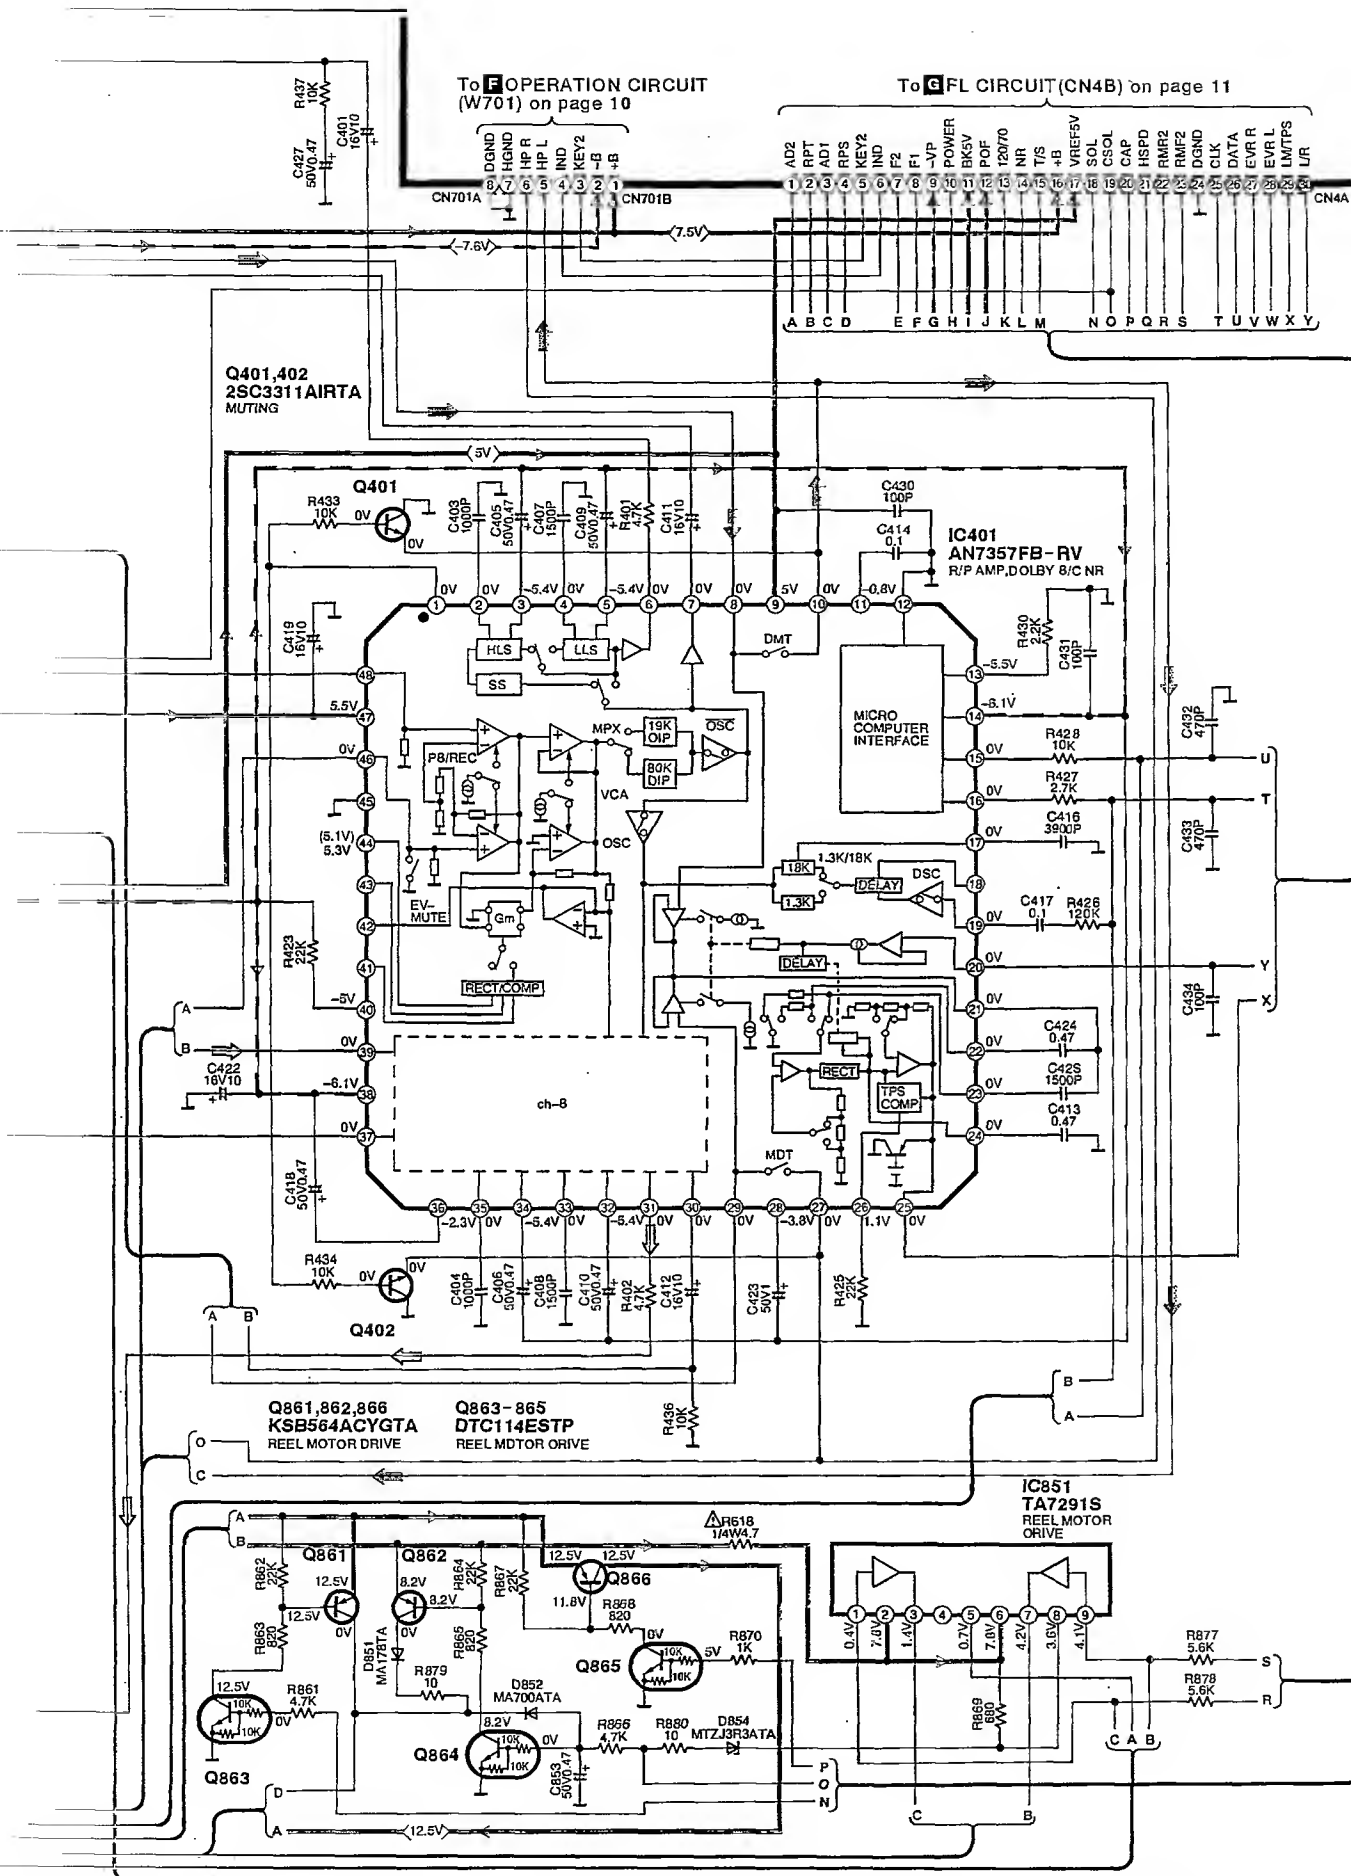

- S701: Stop switch (■).
- S702: Playback/Record switch (▶).
- S704: Fast-forward search switch (▶▶ TPS).
- S705: Rewind search switch (◀◀ TPS).
- S706: Recording/Pause switch (REC PAUSE).
- S707: Automatic-record-muting switch (● AUTO REC MUTE).
- S708: Cassette holder open/close switch (▲ OPEN/CLOSE).
- S709: Monitor switch (MONITOR).
- S711: Power "STANBY ⏻/ON" (POWER STANBY ⏻ ON) switch.
- S712: Counter reset switch (COUNTER RESET).
- S713: Memory stop switch (MEMORY STOP).
- S714: Multiplex filter switch (MPX FILTER).
- S715: Dolby noise-reduction switch (DOLBY NR).
- S716: Auto tape calibration switch (ATC).
- S851: Cassette holder open detection switch in "off" position.
- S852: Cassette holder close detection switch in "off" position.
- S971: Mode switch in "off" position.
- S972: Half switch in "off" position.
- S973: ATS (CrO₂) switch in "off" position.
- S975: Forward rec. inhibit switch in "off" position.
- S976: ATS (Metal) switch in "off" position.
- Resistance are in ohms (Ω), 1/4 watt unless specified otherwise.
1K=1,000 (Ω), 1M=1,000k (Ω)
- Capacity are in micro-farads (μF) unless specified otherwise.
- All voltage values shown in circuitry are under no signal condition and playback mode with volume control at minimum position otherwise specified.
().....Voltage values at record mode.
For measurement us EVM.
- Important safety notice:
Components identified by ⚠ mark have special characteristics important for safety.
When replacing any of components, be sure to use only manufacturer's specified parts.
- (———— <+B> ————) indicates +B (bias).
- (———— <-B> ————) indicates -B (bias).
- (———— ▶ ————) indicates the playback signal.
- (———— ⇨ ————) indicates the recording signal.
- The supply part number is described alone in the replacement parts list.

Part No.	Production Part No.	Supply Part No.
IC701	M5218AL	M5218L

Caution!

- IC and LSI are sensitive to static electricity.
Secondary trouble can be prevented by taking care during repair.
- Cover the parts boxes made of plastics with aluminum foil.
 - Ground the soldering iron.
 - Put a conductive mat on the work table.
 - Do not touch the pins of IC or LSI with fingers directly.
